It's a local brewery that really delivers

COLD beer delivered to your door.

It's one of the great ideas of our era, but don't think a big brewery came up with it; it was a micro brewery from nearby.

3 Ravens, the brewery started by beer-loving engineers five years ago in Thornbury, will start delivering their locally-made beer to the people who appreciate it most; the locals.

"We're about making beer in Thornbury for local people," says brewer Marcus Cox. "Eighty per cent of our product doesn't go outside the Darebin, Yarra and Moreland area. People identify with the fact that we're just around the corner."

If you'd rather pick up the beer yourself, 3 Ravens also have a cellar door operation, much like in a winery.

Visit 3 Ravens at 1 Theobald St, Thornbury, or call 8480 1046. Open from 1-7 on Fridays.
